2. Award Performance Period

The Award performance period is April 1, 2002 through April 1, 2005. This is the period during which Award recipients can incur obligations or costs against this Award.

3. Direct and Indirect Costs

The cost principles found in 48 CFR 31.2 are applicable to this Award. Indirect costs up to 20% of direct costs are allowable under this Award, and are included in the amount of the award. Fringe benefits of 52% of direct labor and vehicle usage of 48% direct labor for heavy vehicles or 27% direct labor for light vehicles are allowable under this award, and are included in the amount of the award. These mark ups on direct labor are charged in lieu of direct charging these items, i.e., the vehicle usage and fringe benefits are not duplicated as direct charges in AP&T's accounting system. AP&T undertakes to perform this work with no profit markup for work performed or managed by it's own workforce.

Please refer to the cost principles regulations for specific details on other allowable charges under this Award.

4. *Budget and Program Revisions*

The Administrative Circular 15 CFR 14 applies to this Award. Please refer to the Administrative Circular for specific details on revisions to this Award. The Administrative Circular requires that AP&T will inform the Commission in writing (e-mail, letter, or report) at the earliest possible date of any unanticipated project cost overrun, project schedule delays, or changes in the project scope or changed site conditions.

5. *Reporting*

Five forms of project reporting are required under this Award, listed below. The first quarterly reporting period is April 1 through June 30, 2002. Unless otherwise indicated, reports are due within 30 days of the end of the reporting period.

The Commission reserves the right, at a future date, to direct AP&T to provide the progress reports in electronic format for posting on the Commission web page.

- a. Quarterly project reporting shall include both a narrative and financial summary. The narrative summary shall include a summary of the project status and accomplishments to date, and address the following questions: is the project on schedule, is the project on budget, and what actions are planned to address any project problems. The project financial status report shall show the following:
 - i. The total project budget
 - ii. The project schedule with milestone dates for design and construction
 - iii. The total amount of Denali Commission funds committed to the project
 - iv. The total project expenditures as of the end of the most recent quarter
 - v. The total expenditure of Denali Commission funds for the project as of the end of the most recent quarter
 - vi. The percentage of expenditures to the total budget; and
 - vii. A project performance analysis on project line items, as defined by AP&T, showing budget costs compared to actual expenditures and obligation to date versus work performed to date (for each line item).
- b. A final Financial Status Report (Standard Form 269 – www.whitehouse.gov/OMB/grants/index.html#forms) shall be submitted to the Commission Project Officer within 90 days after the end of the Award Performance Period. If the Award Performance Period is longer than one year, or if the Agreement is revised to extend the Award Performance Period beyond one year, the recipient must submit a completed Standard Form 269 annually within 90 days after the end of each anniversary of the award date.

- c. A Labor Type, Residence, and Wage Report shall be submitted to the Commission project officer at a minimum of two times annually. At a minimum, these two reports must be submitted on or near August 1st and December 1st each year to correspond with the Alaska construction season. A Labor Type, Residence, and Wage Report must include the following information by construction project for any person employed on the construction of that project: position, place of primary residence, first check date, last check date, rate of pay per hour, payroll earnings from inception of project to date. Personal or confidential information such as Social Security numbers, names of individuals, or other information that would identify an individual should not be included in this report.
- d. Photographic documentation of project progress shall be provided with the quarterly reports for active construction projects. The photo documentation shall include a minimum of five, dated photos per quarter such that a complete record of the construction is maintained over time, from “before,” showing the situation before the start of construction, to “during” showing work proceeding on the project, and “after” to show the finished project. For minor repair and O&M projects, pictures should be provided of before and after to the extent possible. Photos may be provided as photo quality, 3x5 prints with negative for each picture, and/or print quality electronic photos (digital images). A short description of the activity and names of those in the photos shall also be provided.
- e. AP&T shall report annually the percentage of total funds (from the Commission and other sources) received used for planning, design and construction of infrastructure facilities, and/or economic development projects. In addition, this annual report will include a breakdown on how these funds were used: force account construction (including local labor wages paid, rural Alaska wages paid, and total project wages paid), and construction contracting. The 4th quarter report for the year can be used as both a quarter and annual summary report (providing both quarterly and annual financial data).

6. Payments

Payments under this Award will be made through the U.S. Department of Treasury's Automated Standard Application for Payment (ASAP) system. The ASAP system is the Commission's mechanism for requesting and delivering Federal funds to Award recipients. Your organization must be registered with the ASAP program in order to make draw downs. Please contact the Commission's Project Manager or Finance Manager for further information about registering with the ASAP program. Payments will be made in accordance with Administrative Circular. **No interest will be accrued on these funds.**

7. *Award Close Out*

- a. The Award closeout must be completed within 90 days of the end of the Award performance period or within 90 days of the completion of the project, whichever is earlier. The project closeout process out includes the submission of both a final narrative report and financial status report. Recipient organizations must also request any remaining funds for expenditures under this award during this 90-day period. Please refer to the Commission guidance for project closeout for additional details on the requirements. This is available by contacting the Commission office or the Project Manager.
- b. Acknowledgement of support: For all construction projects, the Award recipient shall include an acknowledgement of the Government's support for the project(s) developed under this Award. The Award recipient shall display a sign that:
 - i. Has the Denali Commission logo displayed on the upper right-hand quadrant;
 - ii. States the following: "This project was financed by the Denali Commission and its partners (*list the name of the funding partners*)";
 - iii. Shows the logo of each partner in the lower right-hand quadrant.

The cost of this sign shall be paid out of the project funding received by the Award recipient from the Denali Commission. Final approval of signage material and placement of sign must be obtained from the Commission Project Manager.

8. *Public Policy Laws and Assurances*

Award Recipients are required to comply with the public policy laws and assurances on Standard Forms SF 424b (non-construction projects) or SF 424d (construction projects).
